1 Introduction

Unaudited Regulatory Disclosure Statement

This unaudited quarterly regulatory disclosure statement complies with the Banking (Disclosure) Rules ("Rules") under section 60A of the Banking Ordinance and the disclosure templates issued by the Hong Kong Monetary Authority ("HKMA").

These banking disclosures are governed by the Bank's disclosure policy, which has been approved by the Board of Directors. The disclosure policy sets out the approach to determine the content, appropriateness and frequency of the disclosures, the approach to ensure the relevance and adequacy of the disclosures, and the internal control over the process for making the disclosures. The disclosures have been subject to independent review in accordance with the disclosure policy.

Prior period disclosures as required by the Banking (Disclosure) Rules are available on our website: www.livibank.com.

Basis of preparation and consolidation

The capital ratios were calculated in accordance with the Banking (Capital) Rules ("BCR") of the Hong Kong Banking Ordinance. In calculating the risk weighted amounts, the Bank adopted the Standardized (Credit Risk) Approach and the Simplified Standardized (Market Risk) Approach for credit risk and market risk respectively. For operational risk, the capital requirement is calculated using Business Indicator to calculate the operational risk capital charge.

At 30 September 2026, the Bank does not have any subsidiaries.

2 Key Prudential Ratios (KM1) (continued)

[1] Decrease in CET1%, Tier 1% and Total CAR% as of 30 September 2026 was primarily driven by an increase in risk-weighted assets ("RWA"), partially offset by the operating profit in Q3 2026.

[2] Please refer to note 3 for the key drivers of changes in total RWA.

[3] Please refer to note 4 for the key drivers of changes in the leverage ratio.

[#] The LMR disclosed above represents the arithmetic mean of the average value of the LMR for each calendar month within the quarter.

[1] Increase in credit risk for non-securitization exposures as of 30 September 2026 was primarily due to the increase in loan portfolio.

[2] Since the end of March 2024, the Bank has been exempted under section 22(1) of the BCR from the requirement to calculate market risk under section 17.

[3] Increase in operational risk exposure was driven by operating income in Q3 2026.
