1 Introduction

This unaudited quarterly regulatory disclosure statement complies with the Banking (Disclosure) Rules (“Rules”) under section 60A of the Banking Ordinance and the disclosure templates issued by the Hong Kong Monetary Authority (“HKMA”).

These banking disclosures are governed by the Bank’s disclosure policy, which has been approved by the Board of Directors. The disclosure policy sets out the approach to determine the content, appropriateness and frequency of the disclosures, the approach to ensure the relevance and adequacy of the disclosures, and the internal control over the process for making the disclosures. The disclosures have been subject to independent review in accordance with the disclosure policy.

Prior period disclosures as required by the Banking (Disclosure) Rules are available on our website: www.livibank.com.

Basis of preparation

The capital ratios were calculated in accordance with the Banking (Capital) Rules of the Hong Kong Banking Ordinance. In calculating the risk weighted amounts, the Bank adopted the Standardized (Credit Risk) Approach and the Standardized (Market Risk) Approach for credit risk and market risk respectively. For operational risk, the capital requirement is calculated using the alternative approach communicated to HKMA pursuant to section 340 of the BCR.

Basis of consolidation

As of 31 March 2021, the Bank does not have any subsidiaries to consolidate the financial information in this Regulatory Disclosure Statement.

² Please refer to note 3 for the key drivers of total RWA changes.

³ Decrease in LMR was mainly due to deployment of customer deposits to interbank placements with maturity longer than 1 month.

* No comparative information available prior to 30 June 2020.

The LMR disclosed above represents the arithmetic mean of the average value of the LMR for each calendar month within the quarter.
